

WORKFORCE ANALYSIS

(Section 46a-68-83)

January 2016

INTRODUCTORY NOTES

In the review of the 2014 *Plan*, this section was found to be in compliance.

Adjustments to the Workforce Data

Each year, in an effort to maintain and report the most accurate data, any discrepancies, or errors in race/gender, titles, or location are corrected as they are discovered. Additionally, during this *Plan* year, a re-survey of the employee workforce demographic information was conducted. Employees were given the opportunity to voluntarily self-identify their race, ethnicity and gender using the federally mandated two-part question and race categories. The data corrections are identified in the Employment Process Analysis section.

Additional Notes:

Several job titles in this *Plan* year exceeded 25 employees. These categories are University Staff Professional 2, UCP 9 OSD Consultant & Project Manager, UCP 6 Administrative Services Assistant 4, UCP 5 Academic Advisor 1 and UCP 5 Financial Assistant 2. Separate analyses were conducted for these categories. No categories were eliminated.

In the Professional Professor category, the Distinguished Professor title is separated from the Professor title. The Distinguished Professor is the highest honor that the University bestows on a faculty member who has demonstrated excellence in teaching, research, and outreach/service. It is a purely honorary title bestowed on existing faculty and does not reflect additions to the workforce.

The workforce numbers are based upon all employees appearing in the GENESYS database of the Department of Human Resources as of September 30, 2015.

Subsection (a)

The analyses included in this section display the racial and sexual composition of the total full-time workforce for each office, position and position classification identified in the job title study. Analyses were performed for part-time and durational titles. The analyses includes a detailed breakdown of the individual titles and separate demographic profiles. The workforce analysis inventories the:

- Total agency workforce by occupational category with percentages of race and sex groups calculated for each occupational category

- Total agency workforce by office, position and position classification within each occupational category
- Agency workforce in each relevant labor market area by occupational category
- Agency workforce in each relevant labor market area by office, position and position classification within each occupational category

Labor markets are equated with campuses.

Subsection (b)

The analyses in this section report the age groups of the full-time work force by occupational category in five (5) year increments.

Subsection (c)

The analyses in this section report by occupational category, the number of employees in the full-time workforce who have identified as physically disabled.
