

EMPLOYMENT ANALYSES

46a-68-86

In the last filing this section was found to be in compliance and the proposals/recommendations were the following: In future filings separate the applicant flow analyses for hires and promotions for each occupational category or job titles.

The applicant flow analyses for hires is separate from the applicant flow analyses for promotions for each occupational category.

UConn Health has completed a comprehensive review of the employment process to identify policies and practices that perpetuate or form barriers to equal opportunity for all protected classes. Separate statistical reports of personnel activity were prepared for each occupational category. A separate analysis was conducted for each occupational category. These studies were conducted on forms provided by CHRO. UConn Health will design specific programmatic goals to eradicate all policies and procedures that contribute to the underutilization.

Employment Process Analysis:

UConn Health reported each instance of expansion or reduction in the workforce on Form #86A.

Promotions within the category are reflected on the bottom of Form #86A. These promotions do not change the bottom line of the category but reflect valued responsibilities, which are important to UConn Health, and need to be represented.

Changes from one job group into another job group that are not promotions or demotions are reflected in the Lateral Transfer, line F.

Applicant Flow Analysis:

The Applicant Flow chart tracks applicants through the hiring and promotional process to determine at which point they were no longer a candidate for employment. Information was provided on the required Applicant Flow Analysis Forms #86B1, 86B2, 86B3, and 86B4.

Information on applicants tested is not completed in most classifications because of the following reasons:

- position classification is an unclassified title; or
- job classification is classified, but non-competitive; or
- position classifications are filled by lateral transfers or by employees on reemployment lists.

Personnel Evaluation Forms:

UConn Health has completed this section with data provided by and available through the Human Resources Department.

The Personnel Evaluation section of the Employment Analyses was completed on Form #86B5. The Human Resources Department receives service ratings for all employees and reviews them for accuracy and collective bargaining unit guidelines. Information is reported for all full time employees receiving performance evaluation during the reporting period.

Reprimands, suspensions and demotions include those logged with the Human Resources Department, Labor Relations Unit.
